Notes for DPD service

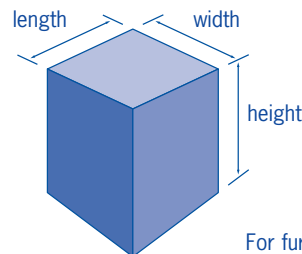

1. When the volume of goods exceeds 4.0 cubic metres per tonne, the company charges are based on whichever is the greatest, volume or weight. **2.** The sender is liable for all non-paid duty and VAT by the receiver when delivery has been made. An additional administration charge of £10.00 or 2% of the value, whichever is the greater, will apply. The sender will also be liable for all costs relating to any goods returned due to non-payment of duty and VAT. **3.** Some rural areas may be outside the delivery times shown. **4.** Delivery times shown exclude the day of collection. **5.** Tariff applies to mainland destinations only. **6.** Minimum invoice charge may apply.

Parcel service

The charge may be based on either the volumetric or the actual weight, depending on which is the greater.

The volumetric weight of your parcel should be calculated as follows:

$$\frac{\text{length (cm)} \times \text{height (cm)} \times \text{width (cm)}}{\text{divided by } 4,000} \quad \text{e.g.} \quad \frac{60 \times 50 \times 40}{4,000} = \mathbf{30\text{kg}}$$

Maximum weight per item **31.5kg.**

Maximum dimensions per item
175cm length, **300cm** girth.

Items exceeding these dimensions will be sent via our heavyweight service and charged accordingly.

For further information, contact 0500 005 005.

Extended liability is easy to calculate using the simple steps below.

Step 1.

Round up the liability or replacement value of your shipment to the nearest pound, e.g. £139.27 = £140

Step 2.

If the value is more than £700, the premium charged will be 1% of the value, e.g. if the value is £837, divide this figure by 100 = £8.37.

Minimum charge £7.00 up to maximum liability of £15,000.
